Do you love discovering cities and immersing yourself deeply in urban life? Then Marburg should definitely be on your list! A true gem in the heart of Germany, idyllically located in the middle of the Upper Hessian mountains!

Historical monuments and green oases, time-honoured history, numerous steps winding through the old town along the half-timbered houses and modern student life - in the middle of Germany and only a good hour's drive from Frankfurt/Main, lies Marburg.

Marburg combines city experience and nature enjoyment, present and past, progress and tradition.
